

Standard Counter Top Deal Tray

- Counter Top Convenience
- No Cut-Out Required in Counter
- Brushed Stainless Steel Finish

Counter Top Deal Trays are ideal for use in areas where the counter cannot be recessed or altered to accept Drop In Deal Trays. The tray has a box shape that allows it to be placed on top of the counter in any position. Notching the glass around the tray provides for secure transactions. Made of heavy gauge brushed stainless steel and available in two sizes. Custom sizes are also available on special order. Deal Tray does not have drain holes, so an awning or overhang is recommended when used in an exterior application.
