

# Standard Drop In Deal Tray

- Flush Drop In Design
- Ideal for Cash and Coins
- Polished or Brushed or Stainless Steel Finishes

Standard Drop In Deal Trays are made of a heavy gauge stainless steel with a choice of a bright polished or brushed finish designed to withstand years of exposure while resisting nicks and scratches. The dish section measures 1-1/2" deep with a 1" wide perimeter lip all around. Three widths are available up to 16", making this tray an excellent choice for ticket booths, service stations and other locations where smaller items are passed. Installation is as simple as cutting a rectangular opening in the counter top, and dropping in the tray that meet your needs. Deal Tray does not have drain holes, so an awning or overhang is recommended when used in an exterior application. Custom sizes are also available on special order.

POLISHED STAINLESS CAT. NO.	BRUSHED STAINLESS CAT. NO.	WIDTH	DEPTH	HEIGHT
CTD08	CTDB08	8"	10"	1-9/16"
